

## Our Preschool Philosophy

- We believe each child is a precious and unique creation of our loving heavenly Father.
- We believe each child progresses at his/her own rate.
- We believe preschool children learn primarily through play. Learning should be natural, fun and challenging. Children learn with concrete examples and hands-on experiences.
- We believe it is important to develop the “whole child”. Our preschool environment gives children opportunities for problem solving, group interaction, sharing, listening, taking risks and making good choices.
- We believe children need to grow physically, mentally, emotionally, socially, and spiritually.
- We believe children learn best in a positive partnership between home and school.
- We believe that God loves us, God made us and wants to have a personal relationship with each person.

*PLAY is the highest form of Research.*
